Non-solenoidal Plasma Formation

Raman R, Mueller D, Nelson BA, et al.

[Demonstration of Tokamak Ohmic Flux Saving by Transient Coaxial Helicity Injection in the National Spherical Torus Experiment](#)

PHYSICAL REVIEW LETTERS 104 (9) 095003 (March 5 2010)

3D Plasma Equilibrium, Stability, and Control

Park JK, Boozer AH, Menard JE, et al.

[Importance of plasma response to nonaxisymmetric perturbations in tokamaks](#)

PHYSICS OF PLASMAS **16** (5), 056115 (MAY 2009)

Sabbagh SA, Berkery JW, Bell RE, et al.

[Advances in global MHD mode stabilization research on NSTX](#)

NUCLEAR FUSION 50 (2), 025020 (February 2010)

Transport and Turbulence, Energetic Particle Physics

Kaye SM, Solomon W, Bell RE, et al.

[Momentum transport in electron-dominated NSTX spherical torus plasmas](#)

NUCLEAR FUSION **49** (4), 045010 (APR 2009)

Stutman D, Delgado-Aparicio L, Gorelenkov N, et al.

[Correlation between Electron Transport and Shear Alfvén Activity in the National Spherical Torus Experiment](#)

PHYSICAL REVIEW LETTERS 102 (11), 115002 (MAR 20 2009)

Boundary Physics, Lithium Research

Maingi R, Osborne TH, LeBlanc BP, et al.

[Edge-Localized-Mode suppression through density-profile modification with lithium-wall coatings in the National Spherical Torus Experiment](#)

PHYSICAL REVIEW LETTERS 103 (7), 075001 (AUG 14 2009)

Canik JM, Maingi R, Evans TE, et al.

[On Demand Triggering of Edge Localized Instabilities Using External Nonaxisymmetric Magnetic Perturbations in Toroidal Plasmas](#)

PHYSICAL REVIEW LETTERS 104 (4), 045001 (January 2010)

Soukhanovskii VA, Ahn J-W, Bell RE, et al.

[Taming the plasma-material interface with the 'snowflake' divertor in NSTX](#)

NUCLEAR FUSION 51 (1) 012001 (JAN 2011)
