

Contents

1. *The NSTX Research Plan Overview*
 2. *The NSTX National Fusion Facility - Status and Upgrades*
 3. *Experimental Research, Control, and Integration*
 - 3.1 Macroscopic Theory
 - 3.2 Transport and Turbulence
 - 3.3 High Harmonic Fast Wave and Electron Bernstein Wave Heating and Current Drive
 - 3.4 OH-Solenoid-free Start-up Research
 - 3.5 Boundary Physics
 - 3.6 Control and Integration
 4. *Integrated Scenario Modeling*
 5. *Theory and Modeling*
 6. *NSTX and the Magnetic Fusion Energy Development Path*
 7. *The NSTX National Research Program*
- Appendix: Collaborative Research Plans*
