

Advanced Wall Conditioning Techniques to Facilitate Accessing High Performance Regimes

- **Candidate Boronization Techniques**
 - **Optimize spatial distribution of TMB deposition**
 - **Daily Pre-Run TMB Boronization**
 - **Between Shot TMB Boronization**
 - **Pure Boron Fueling**
 - **Pure Boron Pellets**
- **Candidate Lithiumization Techniques**
 - **Lithium Pellets**
 - **Lithium Evaporator**
 - **Lithium Limiter Module**
- **Candidate Synergistic Techniques**
 - **Lithium on Siliconization found very effective in HT-7**
