NSTX-U / Magnetic Fusion Science updates

- January 9-11, 2024 (Washington DC) BRN Workshop on Measurement Innovation
- February 27-29 (PPPL) INFUSE workshop / Private Facility Research Program Workshop
- April 8-11, 2024 (York, UK) 50th IOP Annual Plasma Physics Conference
- April 8-12, 2024 (Asheville, NC), US-EU TTF (abstracts: February 29)
- April 21-25, 2024 (Asheville, NC), High Temperature Plasma Diagnostics (abstracts: February 2)
- April 22-26, 2024 (Daejeon, Korea) Joint Workshop on ECE and ECRH
- May 6-8, 2024 (Missoula, MT) Sherwood Fusion Theory Conference
- May 12-17 (Marseille, France) Plasma Surface Interactions (abstract deadline passed)
- July 8-12, 2024 (Salamanca, Spain), EPS (abstracts: February 16th)
- Disruption workshop - at ITER? Sometime in July?
- July 21-25, 2024 (Madison, WI), Technology of Fusion Energy (TOFE)
- August 12 - 16, 2024 (Berkeley, CA) 5th International Conference on Data-Driven Plasma Science (abs: Jan. 12)
- (stay tuned) (September 8-13??) (Ghent, Belgium??), International Congress on Plasma Physics
- September 23-27, 2024 (Dublin, Ireland) Symposium on Fusion Technology
- September 23-27, 2024 (Bengaluru, India) IAEA Technical Meeting on Energetic Particles
- October 3-5, 2024 (Auburn, AL) MHD workshop
- October 7-11, 2024 (Atlanta, GA), APS
- (stay tuned) Fall? (Culham, UK?), International Spherical Torus Workshop
- (stay tuned) November 3-8, 2024 (Malacca, Malaysia) AAPPS

Dig through <u>NSTX-U Data Management Plan web page</u>

1. You should have signed <u>NSTX-U Data Usage & Publication Agreement form</u> to analyze data, give talks, and publish papers based on NSTX/-U data
2. In Acknowledgments, include all appropriate DOE contract numbers
3. In Acknowledgments, include ARK link to data archiving repository (<u>see here</u>)
4. Prior to journal submission, email paper to me to distribute for Team review
5. Prior to journal submission, first PPPL author / co-author should <u>submit manuscript for Patent clearance</u> through <u>Publications Office</u>
6. Once accepted for publication, first PPPL author / co-author should <u>submit "Peer Reviewed Accepted Manuscript" (PRAM)</u> to Publications Office
   - PRAM is *not* your manuscript, it's *not* the final paper; it is made available to you by the journal after acceptance
7. Once accepted for publication, archive data at the Princeton U. DataSpace repository
   - The ARK of the collection that is in the Acknowledgements during review can be changed to the ARK of the actual data item (the submission to Dataspace has to be reviewed and committed to archive. Then, the ARK of the data item is created and sent to author).
