

# Introduction & Agenda

- Objectives:
  - Status of modeling underway.
  - Plans for modeling recent Li related XP's,
    - XPs described this morning (& tomorrow).
  - Implications of modeling for “Enhanced LLD”,
    - LLD on inner divertor?
    - Increased coating rates?
    - Capillary system?
- Agenda:
  - J. Brooks & J.P. Allain (Purdue), Erosion / redeposition analysis of NSTX LLD,
  - D. Stotler, Status & plans for UEDGE / DEGAS 2 modeling of Li behavior in NSTX,
    - Contains some material from A. Pigarov (UCSD).
