**TO: C SUCH**  
**FROM: C NEUMEYER**  
**SUBJECT: NSTX STANDARD DISTRIBUTION LIST**

In order to ensure that NSTX project participants are made aware of the issuance of key controlled documents and revisions thereto, please maintain a Standard Distribution List (SDL) for NSTX. Each time a controlled document is issued or revised, all individuals on the SDL shall be notified.

Key documents include:

- Project Plans
- Project Procedures
- Project Requirements Documents
- System Design Descriptions
- Project Standards
- Project Guides

Also, please maintain a copy of the SDL in the Project Control Documents Folder on the NSTX Project Folder.

Following is an initial SDL to start from.

It shall henceforth be the responsibility of the WBS managers to ensure that people working in their areas who have a need to know are included on the SDL.
