

Run Coordination

S. Kaye 3/25/04

- Draft schedule created for remaining run weeks
 - Broken into three run periods of 4 to 5 run weeks each
 - Average of one late night per week (run til 9 pm)
 - Use as guide for XP development/review
- Schedule is very tight
 - XPs fill remaining run days
 - Little time for unanticipated needs/development – no contingency left
 - Need to find flexibility within schedule
 - Reprioritization of XPs by ET leaders
 - Operations starting earlier than anticipated will help give elbow room
- Schedule will change
- Operations will start aggressively

Monday	Tuesday	Wednesday	Thursday	Friday
--------	---------	-----------	----------	--------
